INTRODUCTION

I am a web developer with strong interest in programming and I love contributing to open source projects. I have experience completing personal projects that demonstrate my ability to work independently, problem-solve, and deliver quality results. I am actively seeking new opportunities to expand my skills and grow as a professional in the technology industry.

SKILLS

- HTML   - CSS   - Javascript   - React.js   - Next.js   -Tailwind
- Bootstrap   - Vite.js   - Firebase   - Github   - Git

EXPERIENCE

FRONTEND ENGINEER (REACTJS)   *SEPT 2022 – DEC 2022*
ULTRALEARN INC, Remote

- Worked with the team lead to change the app from cra(create react app) to vitejs to make the app lighter and faster.
- Reviewed code, debugged problems and corrected issues.
- Analysed existing software implementation to identify areas requiring improvement.

PROJECTS

E-commerce-app

- Fake Store API was utilized to get the product data.
- Firebase was used to authenticate user signin
- The Payment method was integrated with Paystack and Flutterwave
- Built with ViteJS (React) and styled with Tailwind CSS

Real-Estate-app

- Built with NextJS and styled with Tailwind CSS.
- Bayut API from Rapid API was utilized to get all property data.
- Advanced property filtering was added for rentals and sales.

Quiz-app

- Fetch Sports Trivia questions from Open Trivia DB API.
- Save the high scores of users to Local Storage.
- Created a spinning loader icon and a progress bar.

EDUCATION

UNIVERSITY OF ILORIN, NIGERIA   *JAN. 2018 – DEC 2022*
